Professional Summary

Computer Science undergraduate at KL University (CGPA: 9.55/10) with strong foundations in software engineering, data science, and machine learning. Proficient in Java, Python, and JavaScript with hands-on experience building full-stack web applications and data-driven solutions. Certified in Oracle Cloud Infrastructure, AWS, and Machine Learning (IIT Madras). Competitive programmer with 300+ DSA problems solved and 4 CodeChef rating. Seeking opportunities in Software Engineering or Data Science roles.

Education

KL University, Vijayawada

2024 – 2028

Bachelor of Technology (B.Tech) in Computer Science and Engineering

CGPA: 9.55 / 10

Technical Skills

Programming Languages: Java, Python, C, JavaScript, SQL

Data Science & Machine Learning: Machine Learning, Deep Learning, Statistical Analysis, Exploratory Data Analysis (EDA), Feature Engineering, Model Training & Evaluation, NumPy, Pandas, Scikit-learn, Data Visualization, Matplotlib

Software Engineering: Data Structures & Algorithms, Object-Oriented Programming (OOP), REST APIs, System Design Fundamentals, Version Control (Git/GitHub)

Web Development: React.js, HTML5, CSS3, JSON, Responsive Design, Frontend Development

Databases: Database Management Systems (DBMS), SQL, Relational Databases

Cloud & DevOps: Oracle Cloud Infrastructure (OCI), AWS Cloud, Git, GitHub

Analytics & BI Tools: Power BI, Microsoft Excel, Data Analysis

Projects

MedicureX – Healthcare Management Platform

React, JavaScript, REST APIs

- Developed a responsive, modular healthcare management platform using React.js, improving patient workflow efficiency through component-driven UI architecture.
- Designed and implemented patient record management and appointment scheduling modules, reducing manual workflow steps.
- Integrated RESTful APIs for real-time data fetching and built interactive dashboards to visualize healthcare metrics.
- Applied best practices in frontend development including state management, reusable components, and responsive design.

SkyCast – Real-Time Weather Forecast Application

JavaScript, REST APIs, JSON

- Built a real-time weather forecasting web application consuming external REST APIs, processing JSON responses for live weather data and 7-day forecasts.
- Implemented asynchronous API integration using Fetch API and Promises, ensuring non-blocking data retrieval with error handling.
- Developed a fully responsive UI with dynamic data rendering, supporting multiple city searches and live weather updates.

Rakat Setu – Blood & Organ Donation Platform

React, Web Development

- Engineered a full-stack blood and organ donation platform with donor-recipient matching workflows, addressing a critical healthcare access problem.
- Implemented real-time availability tracking, emergency request features, and donor registration modules with accessibility-first design principles.
- Focused on user experience for rural and urban users, improving discoverability of donation resources.

Suryajal – Solar Smart Water Purification System

Innovation Project

- Designed an IoT-inspired solar-powered smart water purification system utilizing UV purification concepts for affordable, off-grid clean water access.
- Developed product concept, technical specifications, and feasibility analysis targeting underserved rural communities with limited infrastructure.
- Presented solution as an innovation project focused on sustainable development and real-world problem-solving.

Certifications

- Oracle Cloud Infrastructure 2025 Certified **Data Science Professional**
- Oracle Cloud Infrastructure 2025 Certified **AI Foundations Associate**

- **Introduction to Machine Learning** – IIT Madras (NPTEL)
- **AWS Certified Cloud Practitioner**
- **GitHub Copilot Certification** – Microsoft

Achievements & Activities

- **4 CodeChef Competitive Programmer (goofy_halo_29)** – demonstrated strong problem-solving and algorithmic skills.
- Solved **300+** **Data Structures & Algorithms** problems across competitive programming platforms.
- Maintained **9.55 CGPA** (Top Academic Performer) in B.Tech CSE at KL University.
- Participated in **GE Healthcare Precision Care Challenge 2025** – applied software and data science skills to healthcare innovation.
